

Food Truck Festival

Kentland Community Center, Landover, MD

D. Robinson, September 6, 2023

Councilwoman Jolene Ivey invited the Coalition for Public Safety Training in Schools, Inc. (CPSTS) to celebrate, with food and fun, to welcome the 2023-2024 school year. The event was held at the Kentland Community Center under the early evening sky. Smells of tacos to barbeque, to fried catfish and meat patties, drifted pass the CPSTS tent. The menu also featured a list of fresh lemonades and Italian Ice. There was plenty of resource information, music, giveaways, and even roller skating.

Several interested students and parents stopped by for information about the Driver Education Scholarship. Those without eligible students took information for other family members or friends. Our tent even caught the attention of a College Park Academy (CPA) Board member. With a single glance at the enrollment statistics for Driver Education from CPA students, CPSTS told to expect that number to increase, significantly.

CPSTS support to these types of events not only demonstrates how we utilize funding provided by County leaders but allows us direct contact with the communities we serve. Our participation enables us to spread the word about CPSTS, link with other committed organizations, and build upon and expand our brand. Most importantly, it's a chance for all members to see firsthand the impact our service to others has on so many.

My thanks to Mr. Taylor and Ms. Boston – Never would have made it without you!
